	Philippines		Certified Coating Inspector according to IMO PSPC								
	ILO Maritime Labour Convention – Approval of Crewing Agencies										

**Basic modules** are designed for new personnel or laterally hired personnel who have no prior knowledge of a subject and who want to have a general introduction to it. They will receive basic knowledge and gain a first insight into the subject.

**Advanced modules** are for those who already have knowledge and experience in the respective field. Advanced courses impart relevant and up-to-date knowledge but take into account the participants' existing knowledge.

**Advanced plus modules** are generally recognised, certified courses or seminars which follow legal guidelines or recommendations.
